Single dental implant	From \$3800	Extras Rebate \$600 - 1100 Hospital Excess or \$1350 - 2650 Anaesthesia \$500 - 900
Corrective jaw surgery	Quoted after consultation	Quoted after consultation

Rebates. Consultations attract a Medicare rebate with a current referral. Extractions and implants are dental procedures with no Medicare rebate; extras cover may pay a rebate. Jaw surgery, grafting and biopsies may attract Medicare and hospital cover rebates. We are not preferred providers with any health fund, so a gap may apply.

Separate bills. The anaesthetist and hospital bill you directly for their fees.

When to pay. Consultations and procedures in our rooms are paid on the day. Surgeon's fees for hospital procedures are due 7 days before surgery; Implant cases three weeks before.

Payment options. Pay by instalments before surgery with our interest-free prepayment plan. Where total estimated costs exceed \$2,000, the Oromax fee can be paid through Zip, interest free over 6 months (Zip approval, fees and terms apply).

Please bring any questions on our fees to a consultation appointment
